### THE OPPORTUNITY

Complement your existing certification, professional education, networking, and career-development offerings with self-directed resources members can use throughout the year. WorkUnblocked Rx helps professionals apply knowledge to workplace expectations, feedback, manager partnerships, organizational change, and performance evidence.

### WHAT MEMBERS RECEIVE

Standard WorkUnblocked Rx platform access at $3.99/month, compared with $19/month. The discounted rate remains protected for the life of the platform while the paid subscription stays continuously active and in good standing. Access is available by web browser or Thinkific learner app. Personalized services are optional and separately purchased.

### WHAT THE CHAPTER DOES — AND DOES NOT DO

Share one chapter-specific enrollment link or promotional code through existing member communications. Career Oxygen manages subscription payments, access, and subscriber support. There are no chapter purchases, commissions, subscription administration, or additional programs to deliver.

### BASIC ENROLLMENT REPORTING

Career Oxygen provides periodic aggregate counts of subscriptions attributed to the chapter referral code. Reporting is limited to code-generated enrollment results; no subscriber names, membership verification, roster reconciliation, or individual-level reporting is provided.

### SIMPLE PARTNERSHIP PROCESS

1. Authorized chapter leader reviews the offer and schedules a 30-minute decision meeting. 2. Participation and launch arrangements are confirmed. 3. Career Oxygen provides the offer code, enrollment link, and member-facing description. 4. Chapter shares the benefit through existing channels.
